About Us

All Land Offshore Services is a marine, oil

and gas services firm whose primary mission is to support the oil and gas sector with the provision of distinctive services broken down into three divisions namely Vessel supply / management, Drilling fluids and chemicals, Procurement.

ALO was incorporated in Nigeria and United Kingdom on the 26th of February and 1st August 2014 respectively. Since inception, we have provided services to local and international oil companies (IOCs), industrial entrepreneurs, co-operate bodies, construction companies, maritime, gas, chemical and mining industries.

To be the leading and most significant Offshore & Marine Services Company for Oil & Gas Offshore Industries in the region and selected market segments globally.

To inspire and empower the maritime industry through successful partnership with companies in the marine, oil and gas sector.

Our Values

All Land Offshore currently services **30%** of the Nigerian maritime security industry, making us one of the leading service providers in the Nigerian market.

Performance

Collaboration

Safety

Accountability

Why chose **All Land Offshore?**

We have built areputation on **excellent service delivery** leveraging deep expertise, cutting-edge technology and international partner networks.

We offer our clients:

Reduction in operational downtime through efficient maritime support ser vices.

Smooth operations and business profitability through the **Provision of high quality marine equipment.**

Our team comprises of industry professionals with sufficient expertise to drive service delivery.

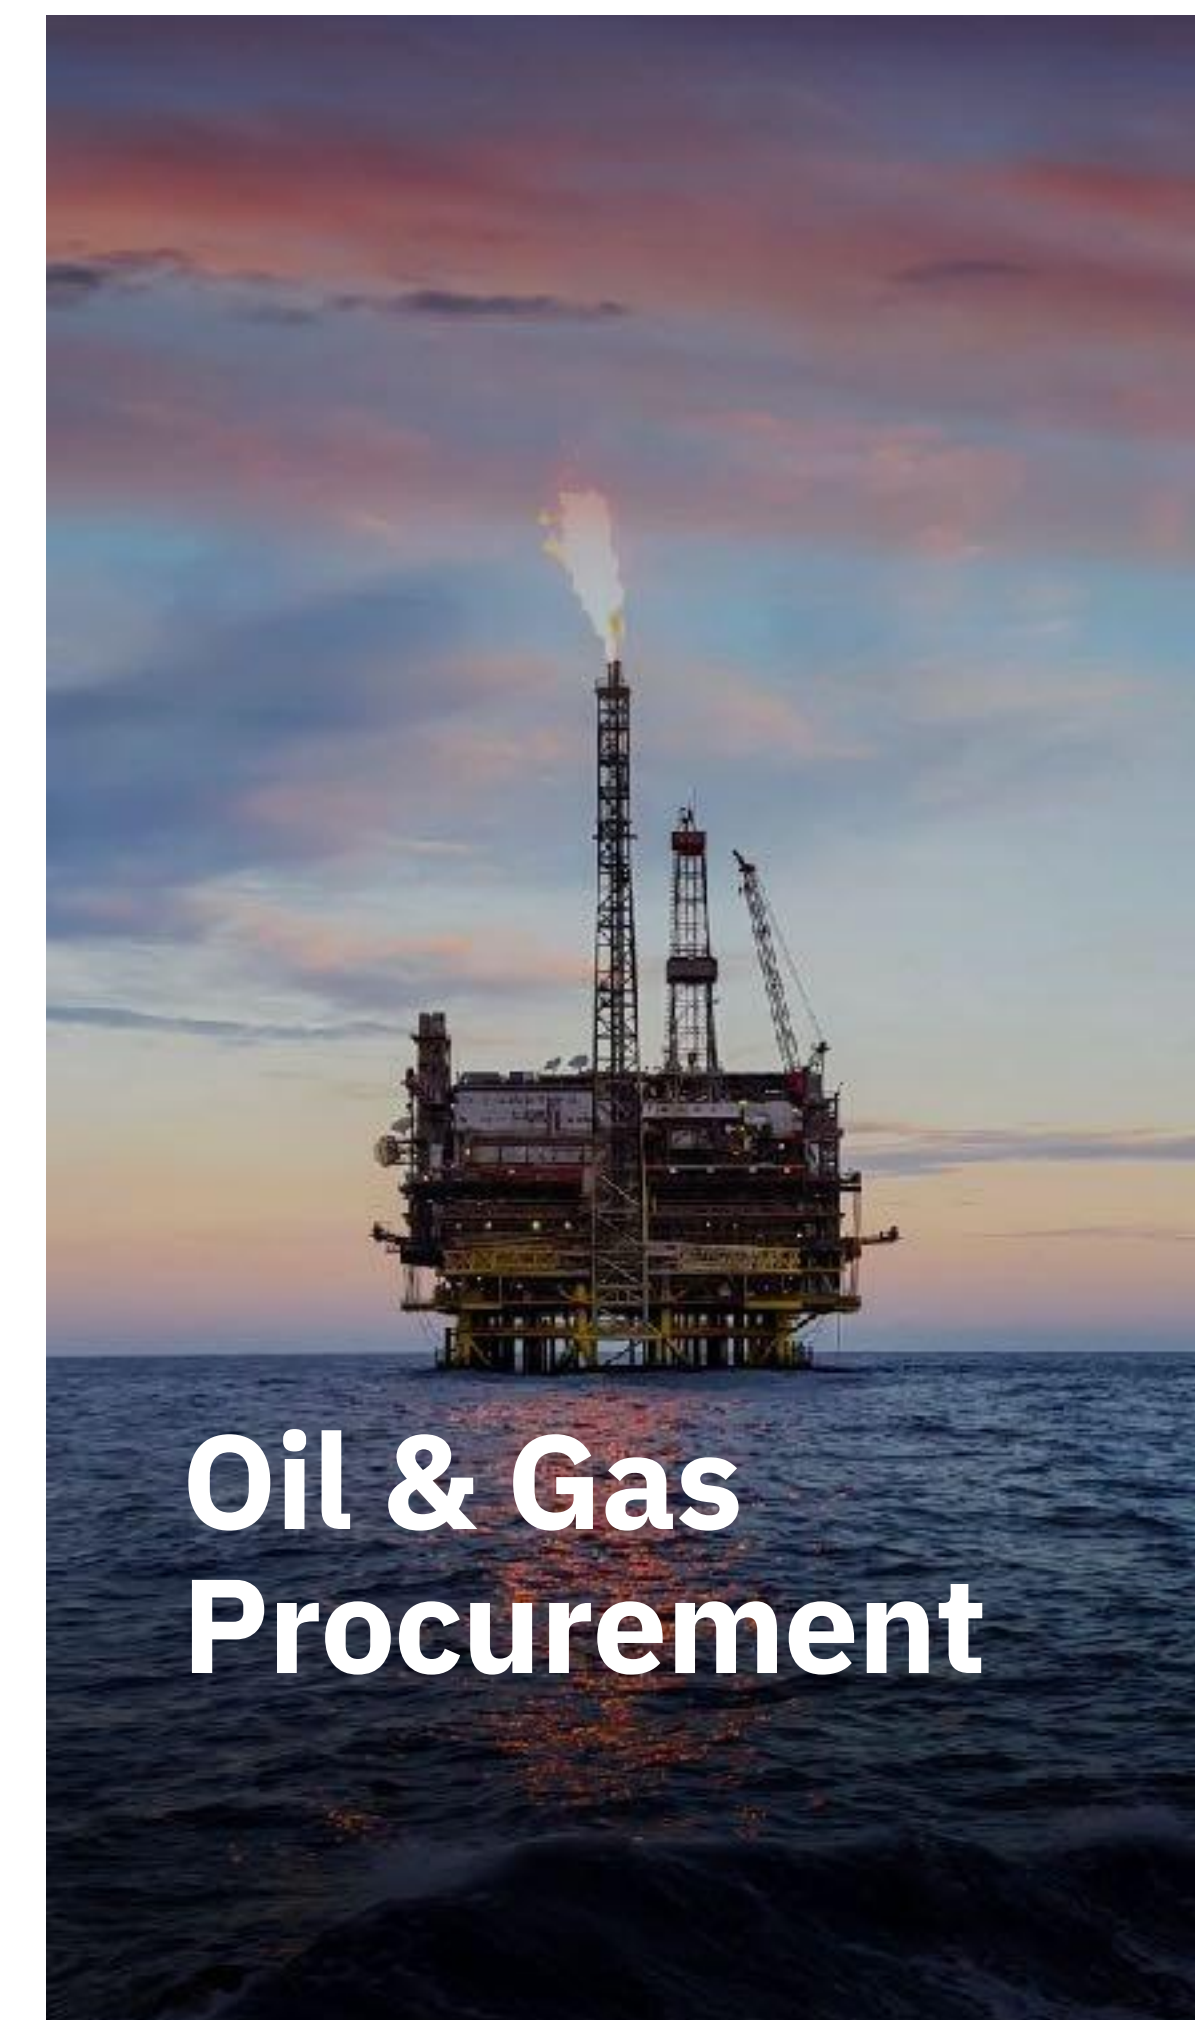

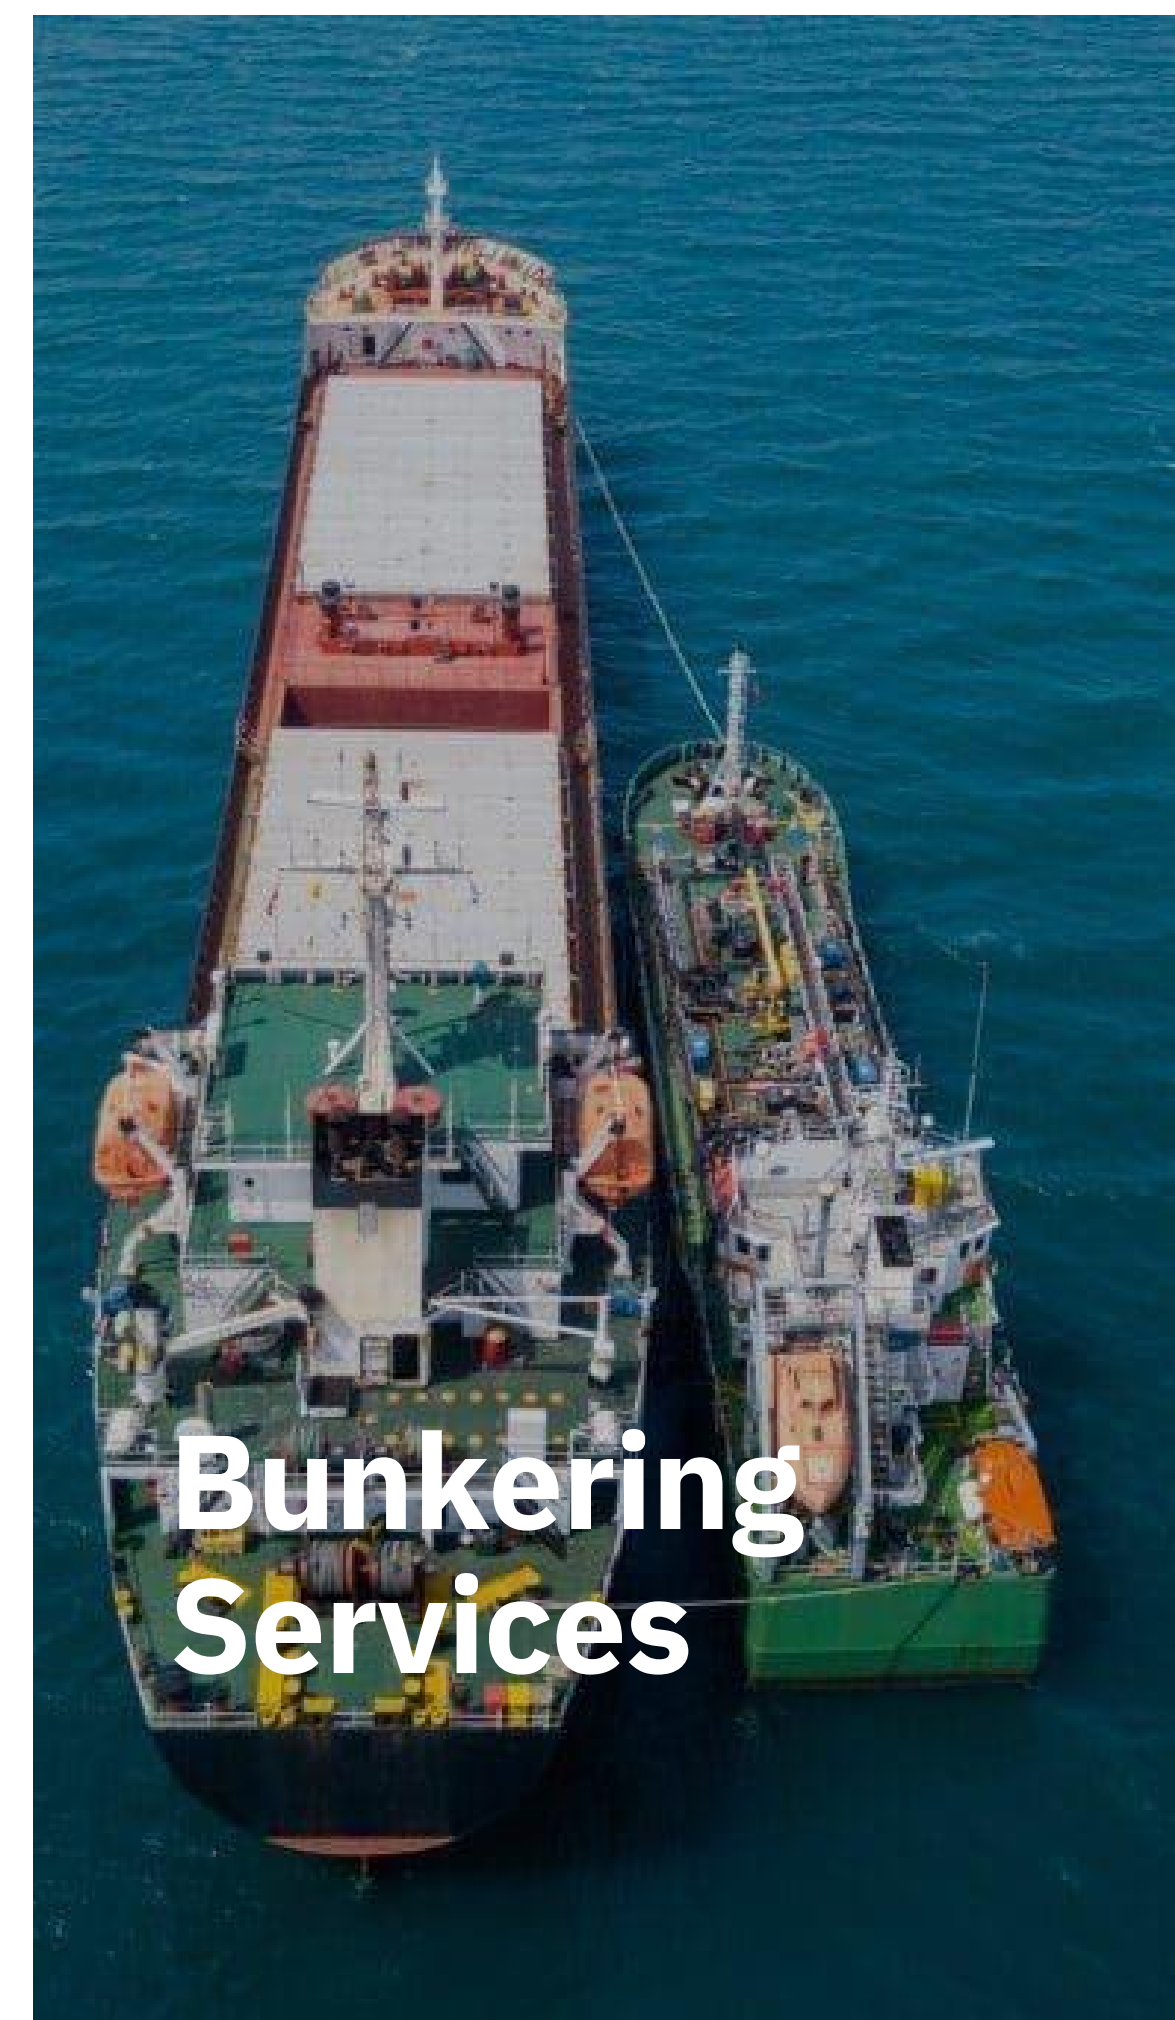

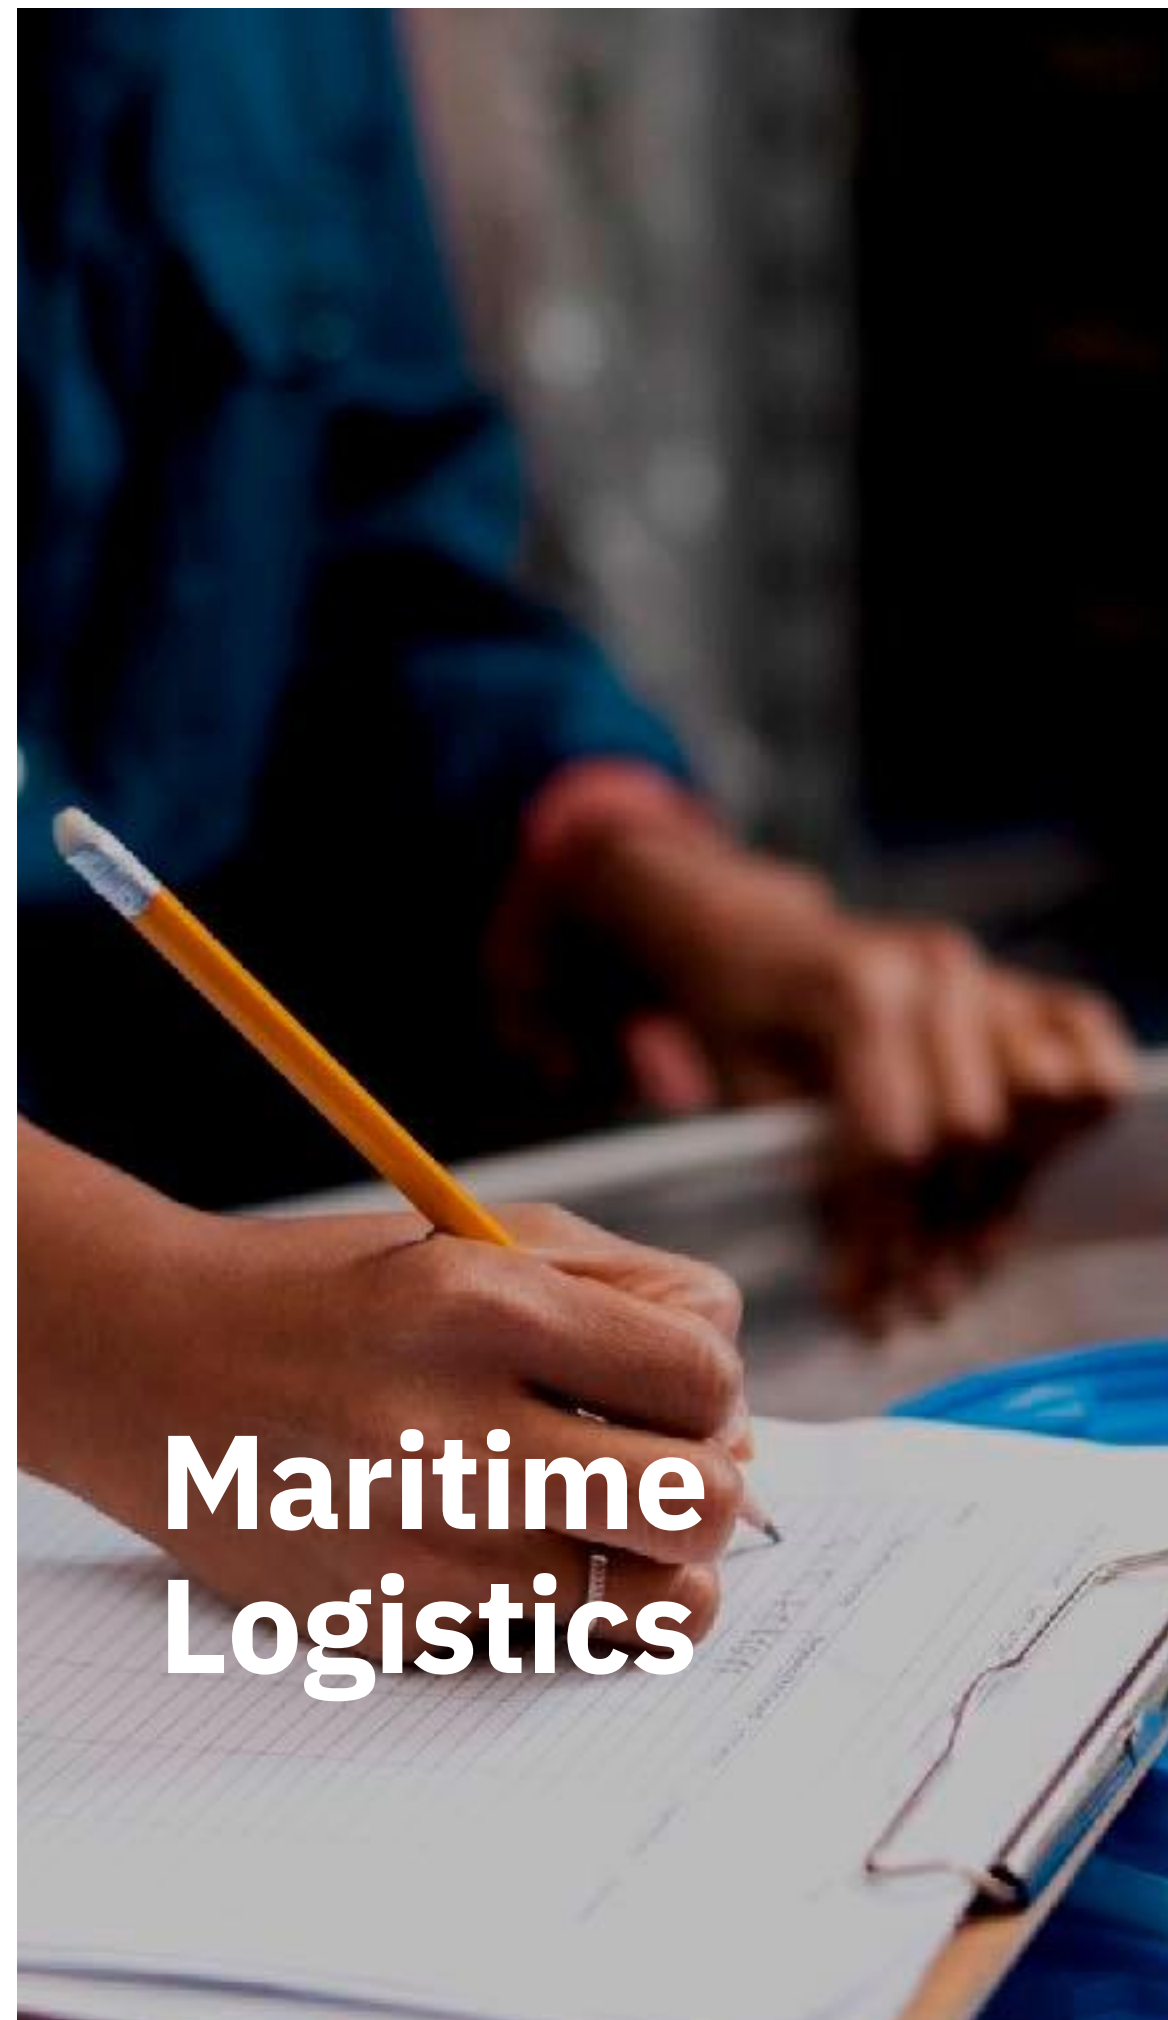

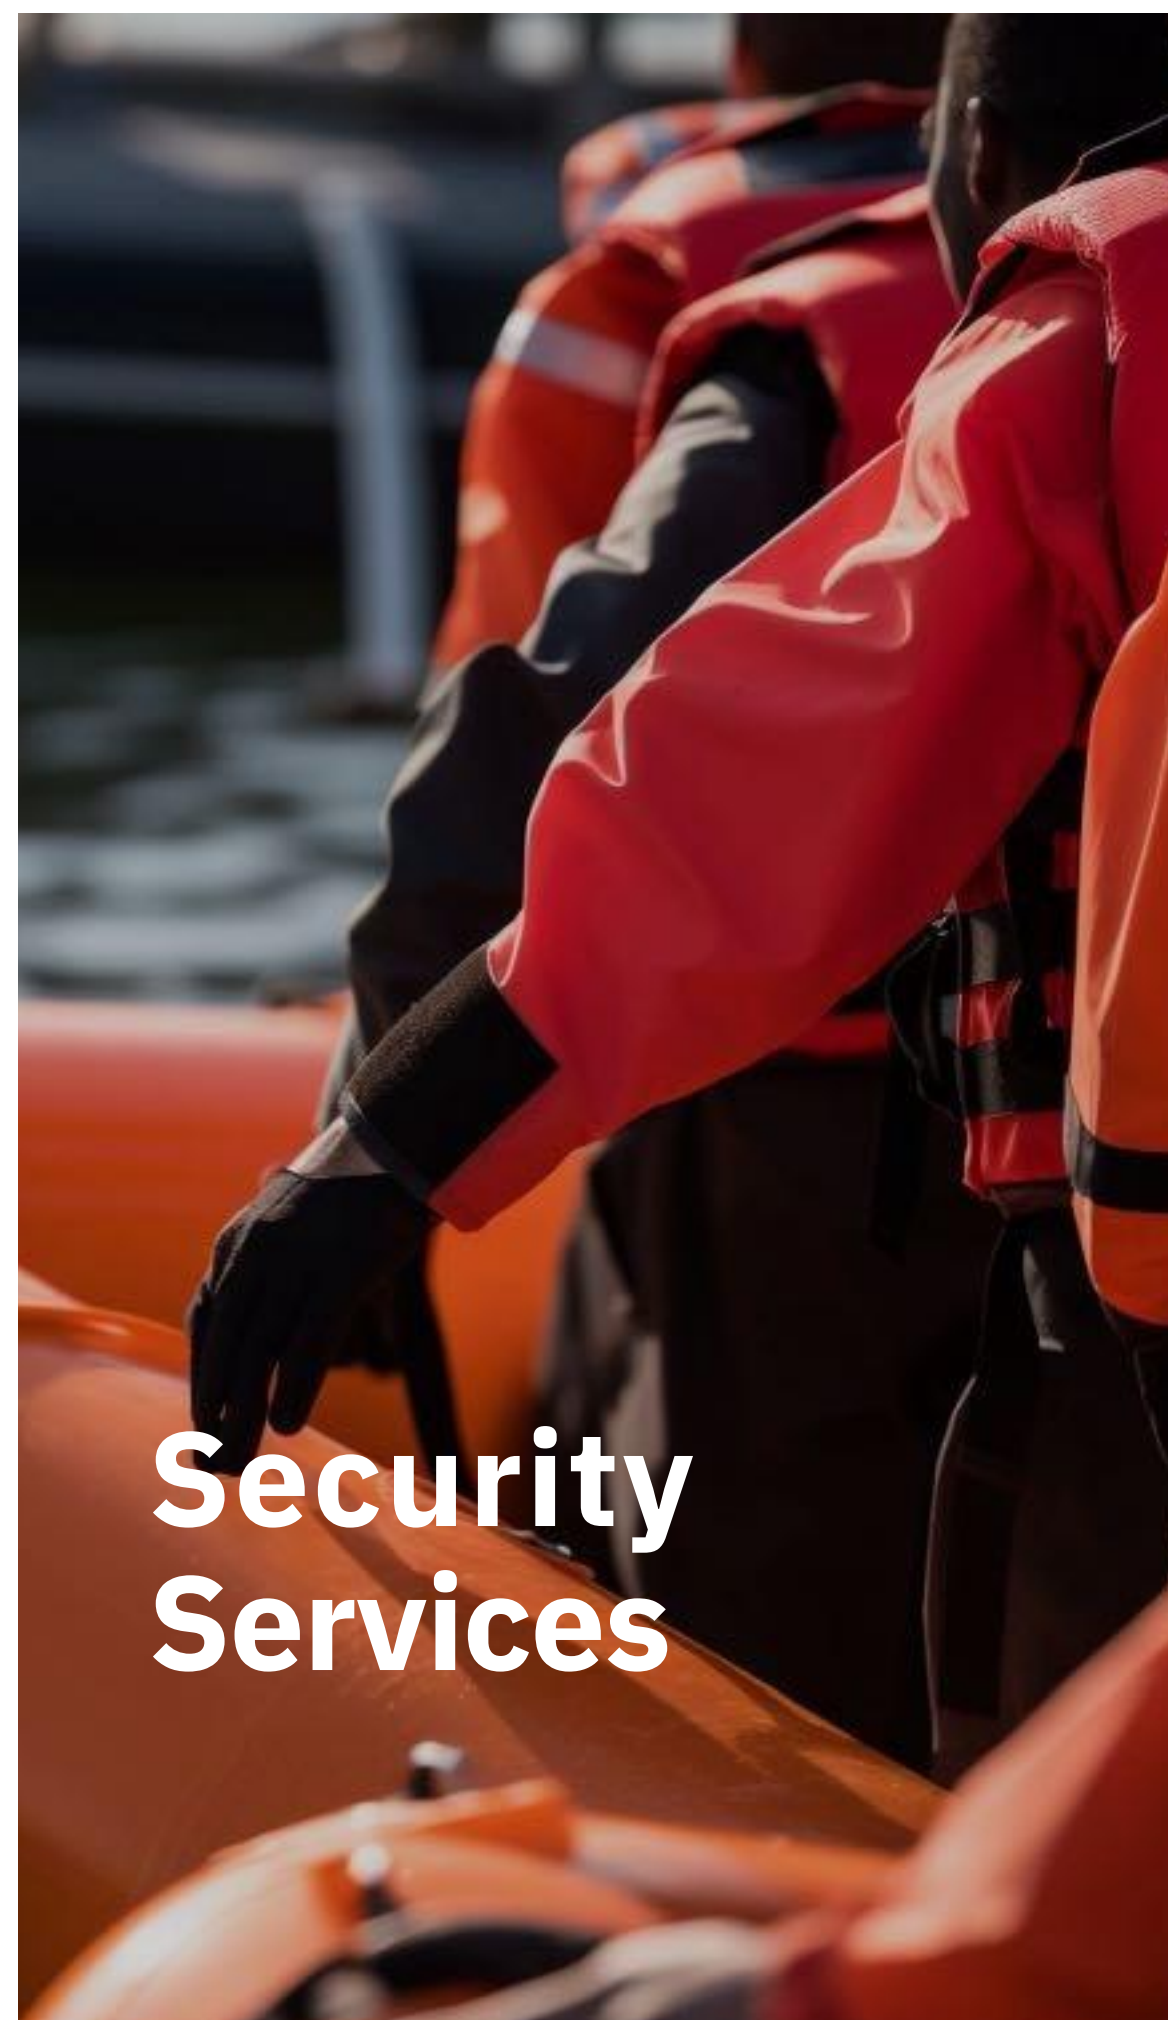

We ensure the **safeguarding of personnel and critical offshore assets.**

Our Services

At **All Land Offshore**, we are committed to being a trusted partner for our clients, delivering sustainable solutions in marine support, terminal operations, and port services.

Service Overview

♦ Maritime Security Services

Our Services

♦ **Maritime Security Services**

We prioritise the safety and security of our client's personnel and assets by monitoring:

- Client vessel movement & activity
- Route risk assessments
- Piracy Intelligence Updates

Through our partnership with the Nigerian Navy, All Land Offshore provides customized Security Escort Vessels (SEVs) and deploys armed naval personnel for onboard surveillance and bridge protection.

All SEVs are fully equipped with modern day tracking, surveillance and communication systems as well as a weapon (armoury) system to mitigate any possible threat to personnel and operations.

Our Services

♦ Maritime Security Services

Facility Security Assessment

Our **Facility Security Assessment** is a comprehensive evaluation designed to identify vulnerabilities, assess risks, and enhance the security of your physical premises. We provide expert analysis and actionable recommendations to help protect your assets, employees, and operations from potential threats.

Key Features

Marine Consultancy

We specialise in marine consultancy and operational management services, tailored to meet the unique needs of our clients. Our experienced team delivers comprehensive solutions that enhance the reliability, efficiency, and effectiveness of your operations.

Our services include:

❖ Manpower

Services: We provide highly trained and experienced professionals, including engineers, technical experts, and operational staff, to support and manage your projects effectively.

❖ Technical & Operational

Management: We handle all technical aspects of vessel operations, ensuring optimal performance, compliance, and efficiency.

❖ Advisory Services:

Our tailored advisory solutions provide in-depth analysis and strategic recommendations to help clients maximize operational efficiency and effectiveness.

Our Services

◆ Maritime Logistics Support

Rig Operations

We offer rig operations services with a strong focus on safety, efficiency, and environmental responsibility. Our services include:

❖ **Drilling Services:**

Using state-of-the-art rigs and advanced technologies, we deliver exceptional results in both conventional and unconventional drilling projects, even in the most challenging environments.

❖ **Well Construction:**

From casing design to completion, we uphold the highest standards of well integrity and longevity, ensuring safe and reliable operations.

❖ **Production Optimisation:**

We enhance reservoir performance and minimize downtime by applying cutting-edge techniques and industry best practices to maximize production efficiency.

Our Services

✦ **Maritime Logistics Support**

Brokerage

Our brokers strive to create value and not simply act as intermediaries.

Our unique mix of professionals creates an open flow of ideas, enabling us to identify and conceive shipping opportunities for our clients and assist them in realising their goals.

◆ Bunkering Services

Our Services

◆ Bunkering Services

We provide **safe, efficient, and compliant bunkering services** to ensure uninterrupted maritime operations. Our bunkering solutions cover the **supply, storage, and transfer** of high-quality marine fuels and lubricants to vessels operating in coastal and offshore waters.

Key Features

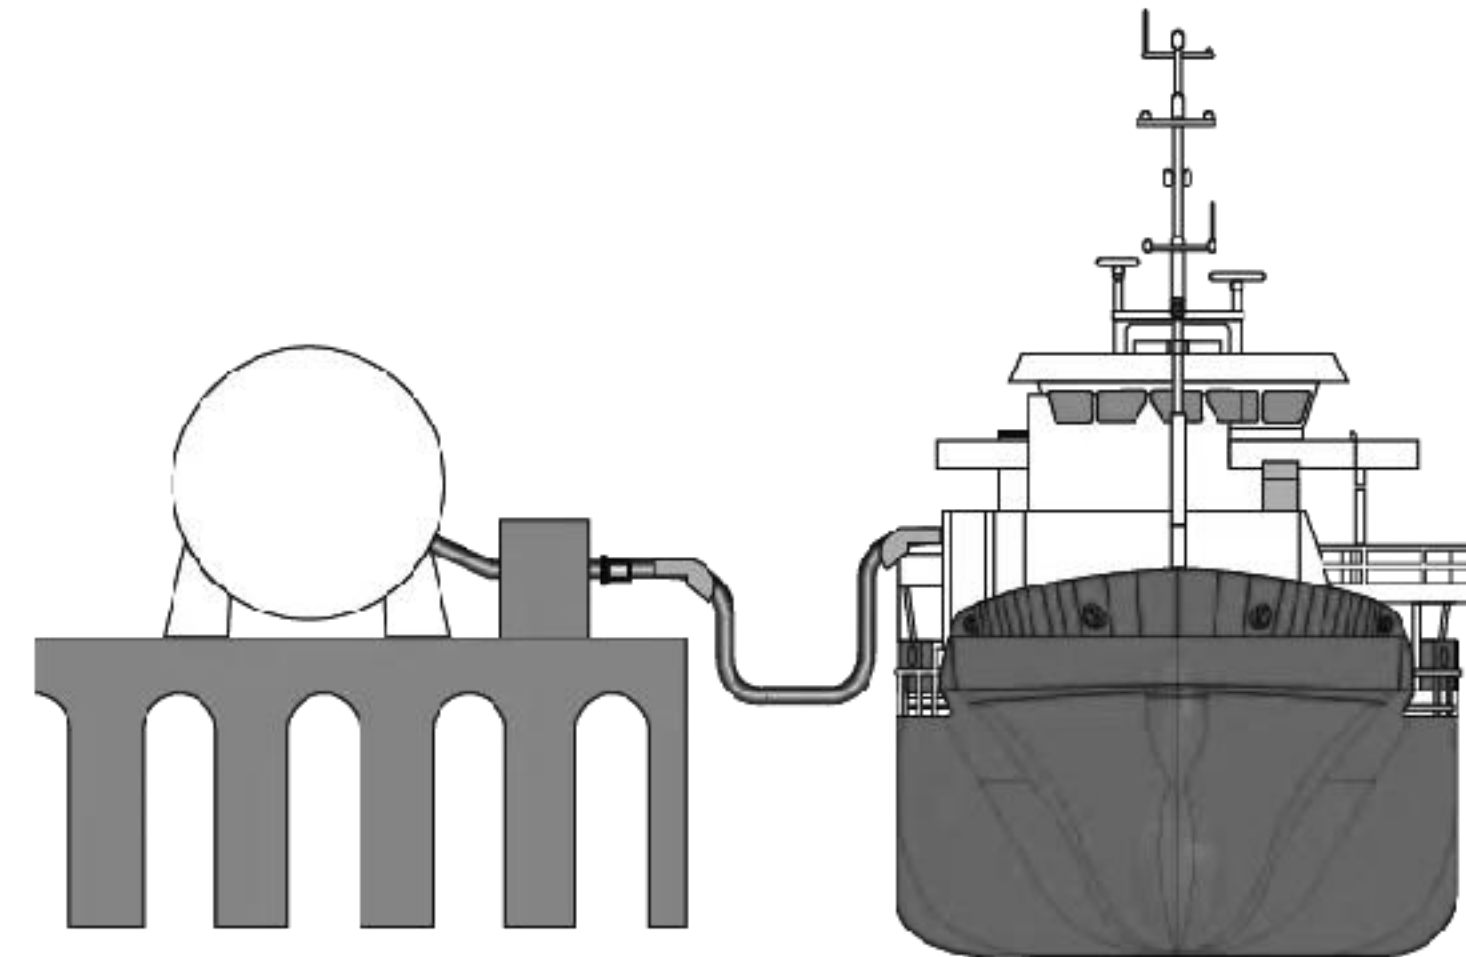

- ✓ **Marine Fuel Supply** – Reliable delivery of high-quality fuel, including MGO, HFO, and LNG, tailored to vessel requirements.
- ✓ **Onshore & Offshore Bunkering** – Flexible fueling options at ports, terminals, and offshore locations.
- ✓ **Fuel Quality & Compliance** – Adherence to international fuel standards (IMO, MARPOL) to ensure efficiency and environmental responsibility.
- ✓ **Bunker Management & Consultancy** – Expert advice on fuel procurement, consumption optimization, and regulatory compliance.
- ✓ **Emergency Refueling Support** – Rapid-response bunkering solutions to minimize downtime and operational disruptions.

Our Services

◆ **Bunkering Services**

We are able to source and coordinate the delivery of vessel bunkers whether at anchorage or alongside the berth.

- **Ship to Ship (STS)**
- **Spot Charters**
- **Truck to Ship (TTS)**
- **Long Term Charters**

Our Services

✦ **Bunkering Services**

- ❖ We charter bunkering vessels on short/medium terms for special (bunker) projects.
- ❖ We conduct daily truck-to-ship (TTS) operations in various ports in Nigeria and West Africa.
- ❖ We provide long-term chartered vessels to perform ship-to-ship (STS) operations globally and proprietary transfer equipment.

◆ **Oil & Gas
Procurement**

Our Services

◆ **Oil & Gas Procurement**

We offer a vast range of procurement services to support the international oil and gas, National Oil and Gas sector as well as the public sector. Our procurement services are designed to assist our clients with limited resources or experience to source the best onshore and offshore equipments to suit their needs. Our experience and network with industry giants globally provides us with access to vendors, state-of-the-art equipment and technical support.

For Oil and Gas Equipment Procurement, we supply:

- ❖ Pipes, pumps and valves
- ❖ Storage Tank Equipment
- ❖ Mechanical and Electrical Tools
- ❖ Safety Wears

Our Clients

Our Qualifications

Our Commitment to Excellence

At All Land Offshore Services, we are committed to exceptional service delivery while maintaining the highest standards of quality, safety and environmental responsibility. Our management systems have been independently assessed and certified to the following internationally recognized standards.

✓ ISO 9001: Quality Management Systems

Our ISO 9001 certification demonstrates our commitment to consistently providing services that meet customer and regulatory requirements. This certification reflects our focus on operational excellence, continuous improvement, customer satisfaction, and effective risk management across all aspects of our business.

✓ ISO 14001: Environmental Management Systems

Our ISO 14001 certification reflects our commitment to environmental stewardship and sustainable business practices. We actively work to minimize our environmental impact, comply with applicable environmental regulations, promote resource efficiency, and integrate environmental considerations into our operations and decision-making processes.

✓ ISO 45001: Occupational Health and Safety Management Systems (OHSMS)

The ISO 45001 certification underscores our dedication to providing a safe and healthy workplace for our employees, contractors, clients, and other stakeholders. Through proactive hazard identification, risk assessment, and continual improvement of our safety practices, we strive to prevent work-related injuries and promote a strong culture of health and safety.

HSE Policy

At **All Land Offshore** we are committed to maintaining the highest standards of **Health, Safety, and Environmental (HSE) performance** in all our operations. Our goal is to protect our employees, clients, contractors, the environment, and the communities in which we operate by fostering a culture of safety, environmental responsibility, and continuous improvement.

Our Commitment

Health & Safety First

We prioritize the health and safety of all personnel by implementing robust safety management systems, risk assessments, and emergency response procedures.

Regulatory Compliance

We adhere to all local and international maritime regulations, including IMO, MARPOL, SOLAS, and ISM Code to ensure legal and ethical operations.

Employee Training & Awareness

We ensure all employees and contractors receive comprehensive HSE training and are empowered to actively participate in maintaining a safe and responsible work environment.

Zero Incident Target

We strive for a zero-incident workplace by proactively identifying and mitigating risks through training, compliance, and continuous monitoring.

Environmental Protection

We are committed to minimizing our environmental footprint by adopting sustainable practices, pollution prevention measures, and responsible waste management.

Incident Reporting & Continuous Improvement

We promote a transparent reporting culture where all incidents, near misses, and hazards are documented, analyzed, and used to enhance safety measures and best practices.
